

Ballpark Pricing

Below you will find descriptions of some typical services and associated fees at REACH. The fees below are estimates and budgets only, and are not a quote for services but merely a guideline for your reference. These prices do not reflect any services that may be covered by your health insurance. Pricing may be subject to change without notice. **These fees do NOT serve as a formal estimate.** Outside services outlined below are paid directly to outside providers, it is the patient's responsibility to contact these outside providers for their exact pricing.

INITIAL CONSULT

\$375 Due at Scheduling

At your first appointment, you'll meet with one of our fertility specialist who will review your medical history and past records (if applicable). Together, we'll discuss your unique fertility goals, review potential findings and map out next steps for your care.

- Anti-Mullerian Hormone (AMH) test and pelvic ultrasound are included in this price. These may be completed at your initial consult, or scheduled for the beginning of your next cycle.

FERTILITY ASSESMENT

\$2400 Due at New Patient Clinic Appointment

Our comprehensive Fertility Assessment Bundle is designed to provide a thorough evaluation of your reproductive health and help you take the next steps with confidence. The \$2400 fee is due before your New Patient Clinic Appointment and includes:

- In-house lab work to assess various fertility-related factors (please note that some tests may be sent to third-party labs, which would incur additional costs).
- Ultrasound(s) - to examine your reproductive organs and check for any structural issues.
- Hysterosalpingogram (HSG)- to assess the health of your fallopian tubes and uterine cavity.
- Follow-up consultation with your specialists to review all results, discuss findings, and develop a personalized treatment plan.

TREATMENT

Below are prices for our basic treatment packages. In addition to treatment services all packages include cycle management and monitoring (bloodwork/ultrasounds) required for your treatment plan. When a specific treatment plan is decided upon, your patient experience manager will provide you a formal estimate. Post treatment care and anesthesia fees are not included.

MEDICATION

Most treatment options will require medications that you will obtain from a specialty pharmacy either dictated by your insurance or recommended by your nurse. Reach is unable to estimate the cost of medication as this is determined by your pharmacy and fees vary greatly upon treatment.

CLINIC AFFILIATES

In addition to fees from REACH you may receive a bill from one of the outside groups that we work with. These services are not included in our bundle pricing. You will receive bills directly from the outside group for any services rendered. If you have any questions regarding expected cost you will need to reach out to the biller directly.
